## *NEW COLLABORATION BETWEEN ANTONY GORMLEY AND SIDI LARBI CHERKAOUI*

Antony Gormley has once more collaborated with choreographer Sidi Larbi Cherkaoui on NOETIC, an exploration of man's instinctive need to structure every detail of our existence, and our longing to break free of the rules and discover what lies beyond them. Gormley will provide the visual landscape for the performance. His set design for NOETIC will give the dancers both bodily extensions and the constructive elements to create a potential architecture for individual and collective action. NOETIC will have its premiere on the 8th of March at Göteborg Opera, Sweden, and will travel to Teatro Camoes in Lisbon, Portugal, in May.
